## SUMMARY

Detail-oriented and results-driven **Java Developer** with experience in **full-stack development**, **RESTful API design**, and **team leadership** in Agile environments. Proficient in **Java**, **Spring Boot**, **Hibernate**, and **MySQL**. Demonstrated ability to **lead teams**, **manage client communication**, and deliver high-quality software solutions. Strong foundation in **data structures**, **object-oriented programming**, and software design patterns. Passionate about building scalable applications and solving real-world problems through clean code and efficient system architecture.

## SKILLS

### Programming Languages

Java, Python , JavaScript

### Frameworks & Libraries

HTML, CSS, ReactJS,  
Bootstrap, Tailwind CSS

### Databases

MongoDB, MySQL,  
PostgreSQL

### Version Control

Git, Github

## EXPERIENCE

### Java Developer Intern & Team Lead | SecureUp,Pune

6 jan 2025 – 6 jul 2025

- Serving as **Team Lead** for a **Java development project**, managing coordination between the **client and development team** to ensure timely delivery and alignment with client requirements.
- Developing a **full-stack application using Java, Spring Boot, and Hibernate**, following **Agile** methodologies and working in **sprints**.
- Leading daily **stand-ups, sprint planning, and progress reviews** to streamline communication and ensure team efficiency.

### Software Developer | ClapStore Toys, Pune, India

March 2022 – Feb 2023

- Developed **RESTful APIs using Java and Spring Boot** with efficient pagination and filtering, improving response times by 50%.
- Boosted **search performance by 40%** by integrating **Redis caching** for frequently searched keywords.
- Built a real-time **inventory system using Redis atomic operations** to prevent overselling during peak traffic.
- Automated end-to-end **API testing with Rest Assured**, ensuring reliability of web services.
- Integrated **third-party payment gateways** to enhance transaction capabilities in the application.

## PROJECTS

### Online Banking System (Java, AWT, MySQL)

- Developed a secure and efficient online banking system using Java and the AWT framework.
- Implemented user authentication, account management, and transaction processing features.
- Utilized MySQL for database management and ensured data integrity.

### E-commerce Website (HTML, CSS, JavaScript)

- Created a responsive e-commerce website with a user-friendly interface using HTML, CSS, and JavaScript.
- Implemented product catalog, shopping cart functionality, and payment gateway integration.

### Tuition Management System (Java, AWT, Oracle)

- I have designed an interface using Java AWT for the frontend and connected it with JDBC to the backend with Oracle.
- I have implemented a feature to search students and identify their pending fees along with the subjects they have chosen.

### Job Portal | MERN STACK (MongoDB, Express, React, Node.js)

- Built a job portal with user auth (Clerk), recruiter dashboard, resume upload, and optimized MongoDB performance.
- Integrated Sentry, deployed on Vercel, and ensured a responsive, seamless UX.

## EDUCATION

- Pursuing **Master of Computer Application(MCA)** - MIT World Peace University,(MIT-WPU) **2023 - 2025**
- **Bachelor of Business Administration (Computer Application)** - Savitribai Phule Pune University **2019 - 2022**
  - CGPA: 7.89

## CERTIFICATION

- Core Java, (ISO certified) | Advance Java (ISO certified) | Android (ISO certified) | Python (ISO certified) | Web Development Certification | SQL
